

Insert really cool logo here	Really Cool Title: Remote Control Car Laser Tag (RCCLT)	
	Version: 2 Revision: 0	Engineer: Daniel Mortenson
	Description: It's RC Cars that play Laser Tag! totally home made, totally 3D printer, totall cool tell your friends	

D

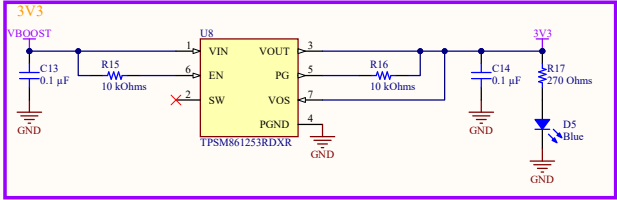

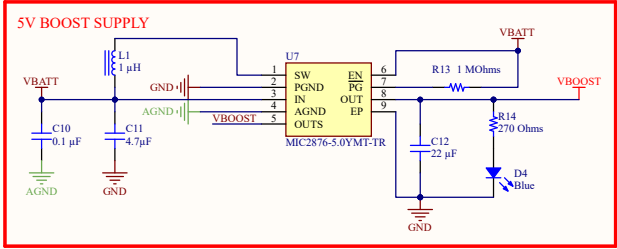

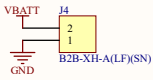

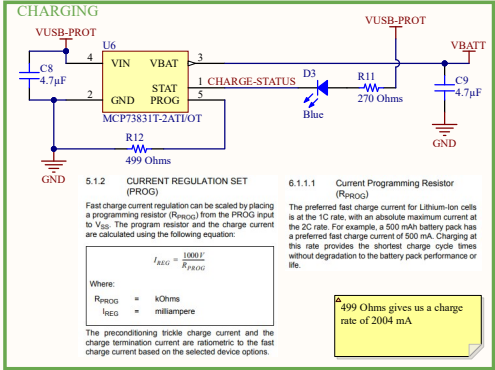

**UART RX/TX
POKA-YOKE**
ポカヨケ

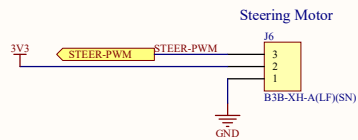

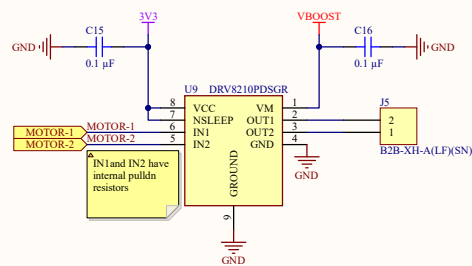

The diagrams illustrate the correct and incorrect ways to connect TX and RX lines to a module. The correct connection (left) shows TX connected to TX and RX connected to RX. The incorrect connections (right) show TX connected to RX or RX connected to TX, which would result in a crossed signal.

© Both receptors must be with the same orientation and on one end to a perfect square format. Designed by ESDA/Cable
